Notice Regarding the Acquisition of Fixed Assets (GPU Servers Equipped with NVIDIA B200)

Datasection Inc. hereby announces that at the Board of Directors meeting held today, we resolved to enter into a purchase agreement (the “Purchase Agreement”) with GIGA COMPUTING CO., LTD. (Head Office: New Taipei City, Taiwan, CEO: Daniel Hou, hereinafter “GIGA COMPUTING”, our strategic business partner, for the acquisition of 625 GPU servers equipped with 5,000 NVIDIA B200 units to be installed in our planned AI data center in Osaka prefecture. We officially executed the Purchase Agreement as resolved.

1. Reason for the Acquisition

Our group is currently advancing multiple projects aimed at establishing AI data centers across Asia and Europe, utilizing superclusters equipped with NVIDIA GPUs. In response to the global shortage of NVIDIA GPUs, we have secured a stable supply through strategic partnerships with server equipment suppliers in Taiwan.

At the same time, we have been developing and building “TAIZA”, a proprietary platform designed to enable efficient operation of AI data centers, which we successfully launched in March 2025.

In parallel with these initiatives, we are also working to strengthen our organizational foundation for the AI data center business. This includes expanding internal talent and deepening discussions and collaborations with existing and prospective partners in this field. In response to a request from a potential client, one of the world’s largest cloud service providers, we have decided to acquire a total of 625 servers equipped with 5,000 NVIDIA B 200 GPUs from GIGA COMPUTING for installation in our planned AI data center in Japan.

※ “TAIZA” is our proprietary optimization algorithm designed for large-scale GPU cluster operations tailored to AI workloads.

2. Details of the Acquired Assets

(1) Asset Name	A complete set of GPU servers
(2) Acquisition Cost	USD 272 million (estimated)

Note: Converted at the closing exchange rate of JPY 144.01 per USD as of the end of June 2025, the amount is equivalent to JPY 39.21 billion.

3. Overview of the Counterparty

(1) Name		GIGA COMPUTING CO., LTD.
(2) Address		No.6, Baoqiang Rd., Xindian Dist., New Taipei City 231, Taiwan
(3) Title and Name of Representative		CEO Daniel Hou
(4) Business Description		Manufacturing and sales of servers and peripheral devices
(5) Capital		TWD 834.6 million
(6) Date of Incorporation		January 3, 2023
(7) Net Assets		Not disclosed due to confidentiality obligations under the agreement with the company
(8) Total Assets		Not disclosed due to confidentiality obligations under the agreement with the company
(9) Major Shareholder		GIGA-BYTE TECHNOLOGY CO., LTD. 83.93%
(10) Relationship with the Listed Company	Capital Relationship	None
	Personnel Relationship	None
	Business Relationship	A basic agreement on strategic collaboration has been executed between our company and GIGA Computing, including the subject transaction.
	Related Party Status	Not applicable

Note: Converted at the exchange rate of JPY 4.92 per TWD as of June 30, 2025, the amount is equivalent to JPY 4,106 billion.

4. Schedule

- (1) Date of Board Resolution July 3, 2025
- (2) Date of Purchase July 3, 2025
- Agreement Execution
- (3) Expected Delivery Period From July to around August 2025 (scheduled)

5. Future Prospect

The impact of this acquisition on our consolidated financial results for the current fiscal

year is currently underdetermined. If and when any material impact becomes clear and requires disclosure, we will promptly make an announcement.

The funds for this acquisition are expected to be covered by advance payments from AI data center clients (JPY 4,872 billion) and borrowings (JPY 34,338 billion).
