PRESS RELEASE

Datasection Inc.

**The First Shipment of GPU Servers Equipped with NVIDIA B200s Has Arrived
at Our AI Data Center**

As announced in our July 4, 2025, press release, “Japan’s first state-of-the-art and one of the Asia’s largest NVIDIA B200-Powered AI supercluster, Delivering Over 100 ExaFLOPS”, the Company has successfully procured 625 servers equipped with a total of 5,000 NVIDIA B200 GPUs. This achievement is based on a strategic partnership with GIGA Computing Co., Ltd., one of Asia’s leading server equipment suppliers headquartered in Taipei, Taiwan. Today, as the first shipment, a portion of these GPU servers has arrived at our AI data center.

The Company continue to proceed with the phased installation of GPU servers, advancing the construction of Japan’s first and one of Asia’s largest state-of-the-art AI superclusters, delivering

computing performance in excess of 100 ExaFLOPS (FP4). This facility is expected to serve as an advanced AI development platform across a wide range of industries, including large-scale generative AI model training and inference.
