Notice Concerning the Report Released Today by Wolpack Research

In a report published today by Wolpack Research (U.S.), it was alleged that the procurement of GPUs for our AI data center business constitutes a violation of U.S. export control regulations, and that Datasection Inc. has engaged in unlawful activities.

Datasection Inc. categorically denies these allegations. There is absolutely no truth to such claims. The Company has advanced the relevant project in full compliance with all applicable laws and regulations, with confirmation from external experts, including legal counsel in both the United States and Japan.

Datasection Inc. will promptly disclose any matters requiring disclosure that may arise in connection with this issue.
