PRESS RELEASE

DataSection Inc.

# DataSection Appoints Stability AI Early Member Scott Trowbridge as Chief Business Officer

---

Strengthening and Expanding Its Global AI Infrastructure Business

DataSection Inc. (Headquarters: Shinagawa-ku, Tokyo; President & CEO: Norihiko Ishihara) announced the appointment of Scott Trowbridge, an early member of the generative AI company Stability AI, as Chief Business Officer (CBO). As demand for AI infrastructure continues to expand rapidly with the global adoption of generative AI, DataSection will leverage Trowbridge's expertise and international network to expand partnerships with AI companies and research institutions, strengthening the foundation of its AI infrastructure business and accelerating global expansion.

## Rapid Growth in AI Compute Demand Driven by Generative AI

In recent years, the rapid adoption of generative AI has significantly increased global demand for large-scale GPU computing resources. The development and deployment of AI models require substantial computational power, making access to reliable AI infrastructure a critical strategic priority for enterprises and research organizations.

## Driving Business Growth as an Early Member of Stability AI

Scott Trowbridge is a business leader with more than a decade of experience in AI, fintech, and deep technology. As an early member and early investor in Stability AI, he led the company's business, sales, and partnerships functions.

## Profile of Scott Trowbridge

Scott Trowbridge is a business leader with more than ten years of experience in the fields of AI, fintech, and deep technology. As an early member and investor in Stability AI, he oversaw business development, sales, and partnerships. Previously, he led the EMEA division of Circle Internet Financial, where he played a key role in the international expansion of USDC and EURC and contributed to the growth of the global digital financial ecosystem.

## Comments

Norihiko Ishihara, President & CEO, DataSection

AI is rapidly evolving from software into a new layer of global infrastructure — what we call Intelligence Infrastructure.

Scott brings deep experience from the frontier of the AI ecosystem and an exceptional global network spanning technology companies, researchers, and entrepreneurs.

His joining DataSection will significantly accelerate our global partnerships and customer expansion as we build the next generation of AI infrastructure.

Scott Trowbridge, Chief Business Officer

I'm delighted to be joining DataSection Inc at such an exciting moment for the global AI industry. The pace of adoption is extraordinary with AI already used by more than three-quarters of organizations and the market projected to grow from hundreds of billions today to well over a trillion dollars in the coming decade. I've seen first-hand how demand for AI infrastructure, GPU compute, and next-generation data centers is accelerating around the world. DataSection is uniquely positioned to help power this new AI economy, and I'm excited to work with the team to scale the business and support customers building the next generation of AI.

## About DataSection

DataSection is a Japan-based AI infrastructure company that develops GPU-centered AI infrastructure platforms and the AI platform 'TAIZA'. The company provides stable and

efficient computational resources essential for AI model training and inference. DataSection is committed to building a globally distributed AI infrastructure while promoting sovereign AI operations and reducing reliance on specific regions or customers.
