Notice Concerning the Change in Consolidated Subsidiaries (Transfer of Shares) and the Expected Recognition of Extraordinary Income

Datasection Inc. (the “Company”) hereby announces that, at a meeting of its Board of Directors held today, it resolved to transfer all of the shares it holds in its consolidated subsidiary, Jach Technology SpA (“Jach”), to an acquisition vehicle in which directors and other officers of Jach have invested (the “Share Transfer”). As a result of the Share Transfer, Jach and its six subsidiaries (collectively, the “Target Companies”) are expected to cease to be consolidated subsidiaries of the Company.

1. Reasons for the Share Transfer

The Group has designated the AI infrastructure business as its strategic core business and is concentrating management resources on this business and on businesses expected to generate strong synergies with it, while also promoting the optimisation of its business portfolio. Jach develops “FollowUP”, a retail support tool that uses in-store camera devices, and provides the FollowUP solution primarily in South America. Christian Pablo Cafatti Cuevas (“Christian”), CEO of Jach and concurrently an Executive Officer of the Company, proposed that, in order for Jach to achieve further business growth, swift management decision-making and agile business operations would be essential, and that a management structure led by Jach’s own management team would be optimal.

Following careful consideration of this proposal, the Company determined that the Share Transfer would contribute both to enhancing Jach’s corporate value and to the optimal allocation of management resources within the Group. The Company therefore decided to transfer the shares to an acquisition vehicle in which directors and other officers of Jach, led by Christian, have invested. Christian is expected to resign as an Executive Officer of the Company upon execution of the agreement relating to the Share Transfer.
