PRESS RELEASE

Datasection Inc.

Notice Regarding the Signing of a Major Contract

Datasection Inc. (the “Company”) hereby announces that the Company has completed the signing of a major contract with world’s leading AI infrastructure platform provider, headquartered in the United States, for the provision of AI infrastructure and GPU cluster capacity, as outlined below.

1. Details of the Contract

Item	Details
Customer	One of the world’s leading AI infrastructure platform provider headquartered in U.S.
Customer Name	The customer’s name is not disclosed due to confidentiality obligations under an NDA
Details of Contract	Provision of GPU cluster capacity and related AI compute services
Contract Value	JPY 139,923 million in total over five years
Contract Term	Five years, including an option for the customer to extend the term by an additional two years
Scheduled Commencement of Service	October 2026

Notes

(1) Contract Value

Based on the closing exchange rate of JPY 159.73 per USD as of August 31, 2026, the total contract value of JPY 139,923 million over five years is equivalent to approximately USD 876 million.

(2) Contracting Party

The contracting party for this transaction is a wholly owned subsidiary of the Company.

2. NVIDIA’s Support for the Transaction

DataSection would like to express its sincere appreciation to NVIDIA for the key role it played in facilitating this strategic AI infrastructure off-take transaction. NVIDIA actively assisted DataSection in establishing a relationship with the strategic off-take partner and continued to provide significant support throughout the development of the engagement, helping to

advance and deepen the commercial relationship between the parties.

DataSection highly appreciates NVIDIA's important contribution in bringing the parties together, advancing this strategic commercial opportunity, and supporting the development of DataSection's AI infrastructure business. DataSection looks forward to further strengthening its strategic relationship with NVIDIA based on their close collaboration and to jointly advancing the development of AI infrastructure and AI compute services.

3. Outlook

The signing of this major contract is expected to contribute to the expansion of the Company's AI infrastructure and AI compute services business.

With services scheduled to commence in October 2026, the Company expects this contract to contribute to increases in net sales and profit and to further strengthen the Company's business foundation in the global AI infrastructure and AI compute services market.

The Company will continue to expand its AI infrastructure and GPU compute service capabilities and deepen its relationships with leading global AI companies and strategic partners, with the aim of further increasing net sales and profitability.
